

SECRET

8 June 1966

NOTE FOR: Dr. Wheelon

SUBJECT : DD/S&T Briefing of DD/I on 14 June

1. I have scheduled time on your calendar on Monday to review the proposed briefing of DD/I.

2. Meanwhile, would you please indicate on the attached sheet which projects Bob Chapman should include in his presentation (30 minutes). For what it is worth, I have checked in pencil some recommendations of those projects which I am familiar. I would like to get the list to as some vu graphs will have to be prepared.

3. Tuesday, 14 June, is day and Carl Duckett probably will not be available. If so, may I suggest that you consider having Don Chamberlain do the OSI part for about 10 minutes and you pick up the OEL and FMSAC portions. Chuck Briggs and Bob Chapman would be the other briefers.

4. Attached is a list (including security clearances held) of the DD/I Officers expected to attend the briefing. DD/S&T attendees will be restricted generally to participants and those whom you may designate to attend.
